

The College of New Jersey

Register Today! Strategies for the Spectrum of Learners 3 Graduate Credits

Today's classrooms include a spectrum of learners who have different levels of attention, learning, communication, and behaviors. This course is designed to offer educators a spectrum of instructional strategies. Learn how to apply research-based educational strategies to advance the knowledge and skills of your students with exceptionalities. This includes, but is not limited to students with ADHD, autism, intellectual, learning, sensory, and emotional differences. Tap into your students' strengths with appropriate interventions and curriculum practices.
